

Design it!

What sort of things would you need to think about in a prosthetic design?

- ⇒ What it looks like?
- ⇒ What it can do?
- ⇒ How much it weighs?
- ⇒ How it feels to wear it?
- ⇒ How easy it is to use?
- ⇒ What is it made out of?
- ⇒ How would you control it?
- ⇒ Can you think of anything else?

Would you want to stand out or blend in?

Note your ideas down here, use the paper and pens to start your design:
